

Post Adoption Support

No Cost | Flexible

No Home Visit Requirement

All families need support and connection, and adoptive families are no different. However, adoptive families do face some unique challenges. Because of this we want to help ensure that each adoptive family is connected to a caring community of individuals who can understand their successes and support them through their challenges.

We serve adoptive families who:

- Have a finalized adoption
- Have an adopted child between the ages of 0-17
- Live in the state of Virginia

Who we are:

A consortium of agencies providing post adoption support, funded by the Virginia Department of Social Services.

What we do:

- Resources and referrals
- Individualized family support
- Education and training
- Parent discussion groups
- Youth social events
- Family activities
- 24/7 crisis support
- Planned respite events
